Stylish affordability. Choose from two sophisticated colors in a 39,6 cm (15.6") diagonal notebook with security and productivity features to help your business.

Windows®. Life without Walls™. HP recommends Windows 7.

Stylish design and out of box productivity

Powered by Intel processors, the HP ProBook 4520s offers refined simplicity in an affordable package. The brushed aluminum finish, available in caviar or bordeaux colors, combines good looks with durability, and includes software such as Face Recognition for easy log-in, and Corel Home Office ¹ for office productivity.

Advanced multimedia support

Advanced multimedia support includes a choice of discrete graphics featuring the ATI Mobility Radeon™ dedicated video memory. Additionally, the notebook comes loaded with the new ArcSoft TotalMedia Suite that allows you to play, edit and create video and audio files. New "multi-media controls" for video control such as play, rewind, fast-forward are now integrated into keyboard, simplifying work with video and audio files. And experience life in high-definition ² with the HDMI port that allows you to connect directly to high-definition displays.

Built to conserve

HP Power Assistant ³ lets you take control with total visibility over your notebook PCs reported power consumption! This easy-to-use tool allows you to conserve power, stretch battery run-time, accurately monitor your reported power needs and report workforce power consumption.

Built to simplify

HP QuickLook 3 ⁴ provides read and write capability of email, calendar, task and contact information in seconds at the touch of a button, without having to boot up. And HP QuickWeb ⁵ grants access to the web in seconds... even if your notebook is turned off.

Built to protect

The new spill-resistant keyboard with drains helps protect sensitive electronics and key components from minor spills. And HP 3D DriveGuard helps protect your notebook's hard drive against impact or drops using a three-axis accelerometer which detects any sudden movement and initiates protective action, so your critical information is protected.

Windows®. Life without Walls™. HP recommends Windows 7.

³ Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at www.epa.gov/egrid/. Regional results will vary

⁴ HP QuickLook 3 is accessible when the notebook is off in Windows XP or Windows 7-based systems not supported from hibernation. Timing may vary depending on the system configuration. To enable the feature following the removal of the battery, reboot the notebook prior to subsequent use
